

# GREAT LAKES BRASS

## Inspired by New Orleans

## Born of the Great Lakes

Great Lakes Brass celebrates the culture and traditions of New Orleans, with an emphasis on the style and sounds of brass bands and second lines. We play traditional songs that are iconic to the origin story of jazz, blues, and funk. We also take cues from contemporary brass band culture, riffing on popular and original music through our funky, New Orleans & Michigan lens. Reverence for history is intertwined with ongoing creative adaptation, and our pledge to play it forward.

Great Lakes Brass is available for performances of all kinds. We play stage sets, parades, community, celebrations, and private events. We are happy to shape our approach to fit the moment. Great Lakes Brass ranges from five to eight players or more. We can perform out "in the wild" without electricity or stage support, and we're equally comfortable in an amplified setting, on stages big and small.
